RATHER HOT ROAST!

A Lexington Democratic Judge Who Hits From the Shoulder.

In the Fayette Circuit Court at Lexington yesterday Judge Watts Parker, Democrat, charged the Grand Jury to investigate the acts of the officers of Lexington and Fayette county in mistreating Secretary of State Caleb Powers and Captain John W. Davis, who were arrested there Saturday night, charged with being accessories to the murder of Goebel.

Judge Parker said an officer who would mistreat a prisoner was on a par with the man who strikes a woman, and that no punishment was too severe for him.

He called the Grand Jury's attention to the abduction of Powers and Davis Monday morning, and said that it was without warrant of law and that the Grand Jury should fully investigate the abduction and indict the guilty parties.

He also instructed the Grand Jury to find by whose authority armed militia paraded the streets and overran the Jail and overawed peaceable citizens.

He urged the fullest investigation into all the occurrences of the past few days, as he said he wanted the world to know that the law was respected in Fayette county and that violators of the law could not go unwhipped of justice there.

EASTER EGGS.

How to Color Them With Tints That Will be Smooth and Even.

"Easter-egg time" is not so very far away now, and the question of coloring them will soon come up again.

A variety of fancy eggs can be made from one package of dyes. Purchase a package containing four colors, red, blue, yellow and violet being pleasing colors. The day before the coloring is to be done dissolve each color separately and put into bottles. The next day select perfectly fresh eggs and wash them clean. If obtainable, use some very small eggs. Put a few of the eggs into a kettle of cold water and let them boil ten or fifteen minutes; long boiling renders eggs more digestible. Only a few should be cooked at a time, as they must be dipped into the dye while hot so as to dry the coloring immediately or they will not be nice.

Pour the dyes into an old bowl or some deep dish. To produce a variety of colors from the four kinds of dye proceed as follows: Dip one-half of an egg into one color and the other half into another. Paste a half inch strip of paper around a white-shelled egg; dip one end of the egg as far as the paper extends in the red dye, and then the other end into the blue dye. When the paper is removed you will have a pretty red, white and blue egg. You can produce from two to three different shades from one color. For instance, dip an egg into the yellow dye to produce yellow, then add a little water to the dye to produce a light orange, add a little more water to produce lemon, and proceed in the same way with the other colors. Roll the eggs over in the dye two or three times until they are evenly colored.

Too many people lose valuable time in experimenting with rough and cold cures. They should take Foley's Kidney and Bladder Pills. J. Jas. Wood & Son and Armstrong & Co.

Mrs. Emily R. Books, mother of S. R. Brooks formerly of this city, is dead at Mt. Sterling.

Going Down Hill.

People suffering from kidney diseases feel a gradual but steady loss of vitality. They should lose no time in trying Foley's Kidney Cure. It is guaranteed. J. Jas. Wood & Son and Armstrong & Co.

THE DEBATING SOCIETY.

The Pen and the Sword Had a Hot Time at Last Meeting.

Last Friday night everybody was out to hear the discussion of that old and familiar subject, "Resolved, That the Pen is Mightier Than the Sword," at the Limestone Debating Society's meeting.

Messrs. Taylor, Cooper, Turnipseed and Meenach of the affirmative and Daily, Dryden, Pollitt and Deatley of the negative were the artists specially engaged on that evening.

Mr. Taylor led off with the pen, showing where Christ had written in the sand and its influence was hurled throughout the world. His speech was ex-tem., and produced the wonderful results of the pen through Dr. Livingstone in exploring the wilds of Africa, where snakes swallowed billy goats with horns protruding out, where monkeys hurled coconuts at one another, and hyenas wandered about in wolf's clothing, and kangaroos smile on you with one elbow and knock the teeth down your throat with the other. In all his speech was magnetic and instructive.

Mr. Daily, the "Goliath of the Fifth," then followed in the language of one of Rome's grandest Senators, "pluribus sylubus unum cum dig." He dealt with the power of the sword in the past and the coming power resulting therefrom. He said that motive power was the power which made things move. Water is a motive power, 'cause it turns the wheels of a sawmill and thus provides us with sawdust full of holes that they might float the canals of Maysville; and that wind is a motive power, 'cause it lengthens the sessions of Congress and various Legislatures, (Kentucky,) and that the time would come when our boots will be pulled on and off by machinery, the children put to bed with four revolutions of the big flywheel and a Tom and Jerry will be mixed and stirred up by pressing an electric button. He concluded by saying that the world never did know what was written in the sand and that it was one of the seven mysteries of the world.

Mr. Dryden, the "Tall Sycamore," then took the floor and defended the sword with a flow of logic like the current of some mighty river sweeping to the sea, and was received with a grand yell. He dwelt largely upon the "Gone with the Wind," and that the pen was only a tool in the hands of many to do evil. When Caesar crossed the Rubicon with a sword in his hand the world thundered with applause; when he crossed the Alps Nations trembled; when he wrote "Paradise Lost" the world wept; and that Admiral Dewey did not want the pen at Manila and Sampson did not want the bottle (of ink) at Santiago.

The affirmative, however, carried off the honors.

When children have earache, saturate a piece of cotton with Ballard's Snow Liniment and place it in the ear. It will stop the pain quickly. Price, 25 and 50 cents. J. Jas. Wood & Son.

The Young Ladies' Mission Band of the Central Presbyterian Church elected the following officers at the last meeting:

President—Miss Georgia Dobyns.
Vice-President—Miss Mary Neves.
Secretary—Miss Lillie May Wardle.

In settlement of an estate Master Commissioner J. N. Kehoe sold the August Galbraith land near Mt. Olivet. It comprised 123 acres and was bought by Mr. J. W. Bentley for \$1,775. This is a trifle less than \$15 per acre, and the former owner paid \$40 per acre for it ten years ago.

Mrs. A. D. Flora died of consumption at the Good Samaritan Hospital in Lexington last Saturday. Mrs. Flora is well known and has many friends in this city, her husband being in business here for some time. She was formerly Miss Guita Shortridge of Paris. Her remains were taken to Richmond for burial.

Couldn't help getting a cold never cures it; but carrying home a bottle of Ballard's Horehound Syrup, and using it as directed, will cure the worst kind of cold or cough. Price, 25 and 50 cents. J. Jas. Wood & Son.

Ringgold Lodge No. 27, I. O. O. F., will hold its regular meeting at the Hall this evening at 7 o'clock.

Deafness Cannot Be Cured

By local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube gets inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free. F. J. CHENEY & Co., Toledo, O. Sold by Druggists, 75c.

The City Council of Versailles is considering the question of requiring the manufacturing concerns of the town—flour mills, ice factory, electric light plant, etc.—to abate the smoke and soot evil. Housekeepers sent in a vigorous protest. The Mayor has appointed a special committee to deal with the problem.

Question Answered.

Yes, August Flower still has the largest sale of any medicine in the civilized world. Your mothers and grandmothers never thought of using anything else for indigestion or biliousness. Doctors were scarce, and they seldom heard of Appendicitis, Nervous Prostration or Heart Failure, etc. They used August Flower to clean out the system and stop fermentation of undigested food, regulate the action of the liver, stimulate the nervous and organic action of the system, and that is all they took when feeling dull and bad with headaches and other aches. You only need a few doses of Green's August Flower, in liquid form, to make you satisfied there is nothing serious the matter with you. For sale by J. C. Peck.
